# Walking Through the Steps to Successful eCQM Submission for CY 2018 Hospital Reporting

Wednesday • October 24, 2018 • 2–3 p.m. ET

Hospital Inpatient Value, Incentives, and Quality Reporting (VIQR) Outreach and Education Support Contractor (SC)

**Audience:** This presentation is geared toward hospital staff and vendors with limited knowledge of the electronic clinical quality measure (eCQM) data-submission process and those who would like a refresher demonstration specific to Calendar Year (CY) 2018 reporting.

**Agenda:** The demonstration will walk data submitters through the steps to electronically report clinical quality measure (CQM) data via the *QualityNet Secure Portal*. The steps include uploading Quality Reporting Document Architecture Category I files, as well as entering zero denominator declarations and case threshold exemptions to successfully meet the eCQM portion of the Hospital Inpatient Quality Reporting (IQR) Program and Promoting Interoperability Program\* requirements for CY 2018 hospital reporting.

**Objectives:** Upon the conclusion of the demonstration and reviewing helpful tips regarding the eCQM data-submission process, data submitters will:

- Develop a greater understanding of the steps needed to achieve successful electronic reporting on CQMs for the CY 2018 reporting period
- Increase their comfort level with the data-submission process, including how to upload a QRDA Category I file and manually enter a zero denominator/case threshold exemption within the *QualityNet Secure Portal*
- Understand how to utilize the feedback provided by electronic health record (EHR) hospital reports to improve data quality and verify that the eCQM reporting requirement has been met

## Speakers

**Artrina Sturges, EdD**

Alignment of eCQMs Lead  
Hospital Inpatient VIQR Outreach  
and Education SC

**Veronica Dunlap, BSN, RN CCM**

Project Manager II
